Dear Sir:

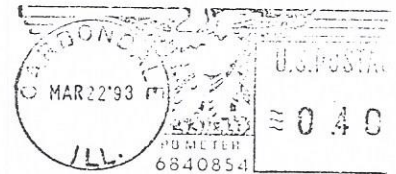

I am happy to write a testimonial for NAG N-Acetyl Glucosamine. I have used the product for a little over a year now and am completely sold on its effectiveness. I suffer from Irritable Bowel. For years I lived with the cycle of constipation and diarrhea, never knowing when the cramping would begin. It was very difficult to function at work or in social situations.

Since I began using NAG, the irregularity has stopped almost completely. I do not experience the cramping or insecurity that I lived with for years. NAG has worked for me. I've recommended it to my boss who suffers from the same condition. It's a great product.

Sincerely,

D.J. Wardynski
