Dear Customer Service Department:

Never before have I written a testimonial on a product, but felt compelled after suffering with Ulcerative Colitis (Inflammatory Bowel Disease) for two years. My doctor had me on prescription drugs, which only camouflaged the problem with severe side effects.

My sister-in-law, who lives in Ottawa spoke to her pharmacist concerning Ulcerative Colitis. He told her of many glowing reports of people using NAG and great relief from their suffering. That was all I needed to hear. After personally telephoning him, he related the same results that his customers had attained from NAG.

My wife visited her family in Ottawa before Christmas. While there, she purchased NAG for me. After only five weeks of faithful use of NAG, there was a definite improvement in my overall physical condition.

It has been a total of nine weeks, since first starting on NAG. There has been so much improvement in my Ulcerative Colitis that I would not hesitate to recommend NAG to anyone that suffers with this condition.

Patience, persistence and following a controlled diet with NAG has helped me toward the road of recover and better health.

Sincerely,

Richard R. Tacon  
President
